

Covid 19- Updated operations August 31st 2020

We are so pleased we can once again provide our dine in experience to our wonderful customers (particularly those who have supported us throughout this period) and can't wait to see our (limited) spaces filled with your faces. Whilst we know this is music to our customer's ears too, we must continue to collectively act responsibly to ensure we prevent further outbreaks and to enable ourselves & our fellow businesses to do what we do best - serve you.

With this in mind, we please ask our patrons to familiarise themselves with the latest advice from our government to ensure yourself, our team and your fellow patrons are safe too. We commit to maintaining our high standards of practice in ensuring the health and safety of patrons both dining in or out and respectfully request your patience during this first step in hopefully getting back to business as usual. All necessary precautions to ensure the premises and the venue are clean as always are being taken. Our employees and customers health is our number one priority and therefore we will be continue to ensure the following:

- Our team is receiving ongoing briefings.
- We have increased the frequency and levels of our cleaning protocol.
- We have increased the use of anti bacterial hand sanitisers.
- We will continue to adjust the food and beverage service in accordance with current recommendations.
- Social distancing- in line with government guidance we follow protocol without exception
- We ask you help to support us in times of Queues in keeping safe distances and waiting outside of our venue where necessary.

We and our fellow local businesses value and appreciate your business more than ever! Thankyou for your continued support as we strive to return back to the good old days as quickly & safely as possible.

As always, be kind, be considerate, be responsible.
